SUMMARY

Computer Science student with strong foundations in data structures, algorithms, and full-stack development. Cleared INOI twice and built AI-powered, multi-database systems using React, FastAPI, and LLMs. Passionate about building scalable tools and solving real-world problems through code.

PROJECTS

ThreadScribe | *React, FastAPI, LLMs (Gemini, Hugging Face), GoLang, TailwindCSS* **2025**

- AI-powered tool that summarizes WhatsApp chats into actionable blocks—tasks, questions, decisions—using LLMs.
- Supports chat upload and live stream (WhatsApp MCP), with a structured dashboard and checklist interactivity.
- FastAPI backend optimized for merged summaries; React frontend styled with Tailwind and animated with Framer Motion.

PreOrder | *React, Node.js, MongoDB, TypeScript, Stripe* **2026**

- Co-founded a campus food pre-ordering platform — students order ahead, skip canteen queues, and pick up when ready.
- Built full ordering system with vendor dashboard, real-time order tracking, and Stripe payment integration.
- Node.js/Express, Supabase (PostgreSQL), React; built end-to-end.

Shuffle – Close-Range Rental App | *Flutter, Dart* **2025**

- Worked as frontend developer for a ride-rental app similar to Ola/eBay, designed for short-range rentals.
- Built landing page, admin panel, login flow, address form, and upload interface; also designed app logo.

Coding Profiles

- **Codeforces:** Max Rating **1480**(**specialist**), Solved **650+** Problems
- **CodeChef: 1653(3-Star)** Rating, Solved **100+** Problems
- **Atcoder:** Max Rating **524**, Solved **100+** Problems
- Participated in **160+ contests** across Codeforces, CodeChef, AtCoder, and LeetCode.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, Dart
Frameworks & Libraries: React, Flutter, FastAPI, TailwindCSS, Hugging Face
Tools & Platforms: Git, Linux, Postman, AWS, VS Code
Databases: MySQL, PostgreSQL
Core Skills: DSA, Full-Stack Development, Generative AI, REST APIs

ACHIEVEMENTS

2× INOI Qualifier (2022, 2023)

∗ *Selected among **Top 150 Students** nationwide for Indian National Olympiad in Informatics*

Smart India Hackathon '25 – Internal College Round Finalist (Top 50 Teams)

∗ *Selected in the **Top 50 of 328 teams** in the SIH 2025 internal round at ABES Engineering College.*

4th Place – Hack'24 (IIIT Delhi)

∗ *Built a system enabling Tabular queries across multiple databases with a structured, tabular interface.*

1st Place – Clash of Coders 3.0 (ABES EC)

∗ *Won college-level CP + debugging event as part of Team Acktron*

Winner – Battle of Brains (ABES EC)

∗ *Secured 1st place in a tech quiz + coding challenge by Enigma Club*

EDUCATION

ABES Engineering College, Ghaziabad **2024 – 2028**
*B.Tech - Computer Science and Engineering - **CGPA - 7.71*** *Ghaziabad, Uttar Pradesh*
