EXPERIENCE

ZSCALER INC. | Software Engineering Intern
On-Site | Bengaluru, IN | 02/2025 - 07/2025

- Automated SSL & Firewall policy validation for IoT on **Zscaler Zero Trust Exchange's ZIA** using **Python/Pytest**; built **10+ regex-based reusable CLI parsers** to structure ZIA command outputs.
- Engineered **30+ regression test cases** for SSL, Firewall, & URL Filtering across various traffic forwarding; integrated with an in-house automation framework to expand coverage & accelerate validation cycles by **40%**.
- Directed **daily regression cycles across multiple builds/branches**; diagnosed failures, delivered reports, & partnered with cross-functional teams to drive prioritization & validation of fixes.
- Automated & ported **Windows login workflows** (IPv4/IPv6) with **Pytest**; scripted post-upgrade sync, reducing manual overhead by **70%**.
- Resolved traffic, flaky test, and testbed issues; generated ZIA feature **code coverage reports** and implemented **modular programming practices**.

IIT ROPAR - AWADH CARNIVAL | Research Intern
Remote | Ropar, IN | 06/2022 - 08/2022

- Executed design of **Smart Crop Sensor System** with 4-member team, focusing on **optimizing fertilizer application and maximizing absorption**.
- Spearheaded research efforts to inform system design, culminating in the author of a research paper detailing findings.
- Worked closely with team members to integrate research insights into system development, ensuring project success.

PROJECTS

BOOKING APP | React.js, Node.js, MongoDB

- Developed a property rental platform using the **MERN** stack with secure **JWT authentication**, user management, and responsive UI.
- Implemented **RESTful API** endpoints, **MongoDB/Mongoose** data models, and context-based state management for user sessions.

JUITCONNECT | React.js, Node.js, MongoDB

- Developed a university Q&A platform with **React.js, Node.js, Express.js**, and **MongoDB**, integrating WebKiosk API authentication.
- Built post, answer, and upvote features with real-time data fetching; designed **RESTful APIs and MongoDB schemas** for users, posts, and responses.

PLACEMENT PORTAL | React.js, Node.js, Express.js

- Developed a placement portal with dual user interfaces and role-based authentication using **React.js, Node.js**, and **Express.js**.
- Built a job management system with file uploads, responsive UI, and a **RESTful API** backend for a streamlined recruitment process; maintained proper **Git** workflow.

ACHIEVEMENTS

- Completed 300+ questions on LeetCode in C++| Ongoing
- Campus rank 71 on GeeksforGeeks | Ongoing
